BANNER PERMIT REQUIREMENTS

NUMBER AND LOCATION Banners shall be displayed on the wall(s) of the building space occupied by the business advertised on the banner, not to exceed one banner per wall and two (2) banners per business. Banners shall not be displayed facing a freeway. Banners shall be attached to buildings, except for a business engaged in a substantially outdoor enterprise, for which a banner may be placed in an alternative location and of a size that would be enjoyed by a typical indoor business situated on a site of the same size.

SIZE Each promotional advertising banner shall not exceed 10% of the area of the face of the building or portion thereof on which it is placed, except one banner not to exceed 16 square feet in sign area may be displayed per street frontage in conjunction with a church or other quasi-public use.

INSTALLATION Banners shall be securely fastened at all four corners to the building wall. Banners shall not obscure windows, doors, lighting fixtures, other signs, nor shall it be displayed above the walls of the building. The method of attachment shall prevent the banner from flapping in the wind.

DISPLAY OF PERMIT A copy of the approved banner permit shall be displayed in a conspicuous place on the premises in full public view for as long the permit is in effect.

NEW BUSINESS A promotional advertising banner shall not be displayed in lieu of a permanent wall or canopy sign except during the first 60 days of issuance of the certificate of occupancy

MAINTENANCE Banners shall be maintained free from deterioration, disrepair or other condition that would create a nuisance as described in Section 6.04.030 (p) of the Municipal Code.
